Better Than Ever—Our Annual Thanksgiving Sale

Men's \$1.50 Shirts 95c Each

Many have bought here and in a week or two after they had seen how the shirts laundered have come back and bought more. Materials are percales and the colors are fast. All new patterns in wide, narrow and medium stripes. Sizes 14 to 17.

The headlines on these two ads tell briefly just what this sale holds in store. Year after year—just before Thanksgiving—we hold this Annual Thanksgiving Sale. And this year it is bigger, better and more significant than ever. We appreciate the patronage of Topeka people and of Kansas people and in this manner try to show in a practical way the depth of our appreciation.

We believe the most vital factor in a store's success is the quality of the merchandise shown. We believe that an article without dependable qualities is not worth buying—no matter what the price. We do not believe in merely making sales—we want to make friends and steadfast customers, too. For that reason we are very careful of what we offer (even in special sales.) You can depend on every article listed here.

IN NORTH TOPEKA

Mills Received 300 Cars of
Wheat in Two Weeks.

All This Came In Over the
Union Pacific.

The long delayed influx of wheat has commenced and for the first time this year millers are getting enough grain to meet the demands made on them. Until a short time ago, it is estimated, that not more than thirty or forty cars of grain had been shipped to North Topeka by the Union Pacific Railway company. Since that road has commenced hauling wheat, however, one mill alone has obtained more wheat than all mills combined had been able to get heretofore this year. In the past two weeks, more than 300 cars of grain have been brought to North Topeka by the Union Pacific.

Practically all of the better grade of wheat is coming from the western part of the state and from Colorado. As the wheat line comes east, the quality of the grain is of an inferior grade due to the heavy rainfall in the

eastern section of the state last summer.

Will Start Big Work Tomorrow.
Workers of the Second Presbyterian church engaged in the evangelistic campaign will meet at the church to-night when reports on the work already done will be made. From the reports of workers tonight any weak spots in the campaign will be brought to light and an effort will be made to eliminate them. Then new territory will be assigned all members and Thursday morning the big gun in the search for new members will be sounded.

Will Lay Sidewalk.
Three hundred feet of pressed brick sidewalk will be laid by the Santa Fe Railway company on their property at the Junction upon which is being built the new Santa Fe station. On the south side of Gordon street, 200 feet of the paving will be laid, while 100 feet will be laid north of Gordon. Connection will also be made with the Fairchild street sewer thus affording excellent sewage facilities.

It is believed that the new station will be completed and ready for occupancy within two months.

"YOU NEVER CAN TELL"

Governor Hodges Is Not in the Senatorial Race, Now.

Former Governor George H. Hodges, of Olathe, who was a visitor at the state house Tuesday, stated that at present he had no intentions of running for United States senator. "You never can tell how the political situation in Kansas will change in three years, though," he said. The former governor has plenty of engagements on the lecture platform to keep him busy and he is having a fine time. Mr. Hodges conferred with the officials of the Santa Fe railroad and members of the public utilities commission about a semi-automatic telephone system which is being planned for Olathe.
